3. READING EBOOKS ON PC OR MAC

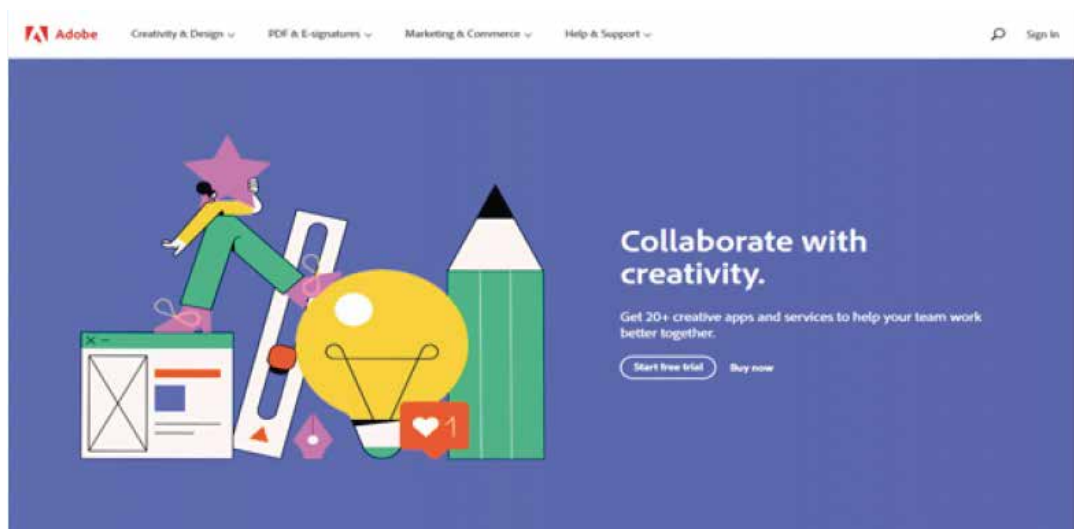

You will need an Adobe ID and the DRM eBook reader app to view your eBook.

If you are using a tablet/iPad or smart device, please see the sections above on "Reading an ebook using PocketBook Reader/Adobe Digital Editions". Please remember to authorise all these readers with your Adobe ID and password.

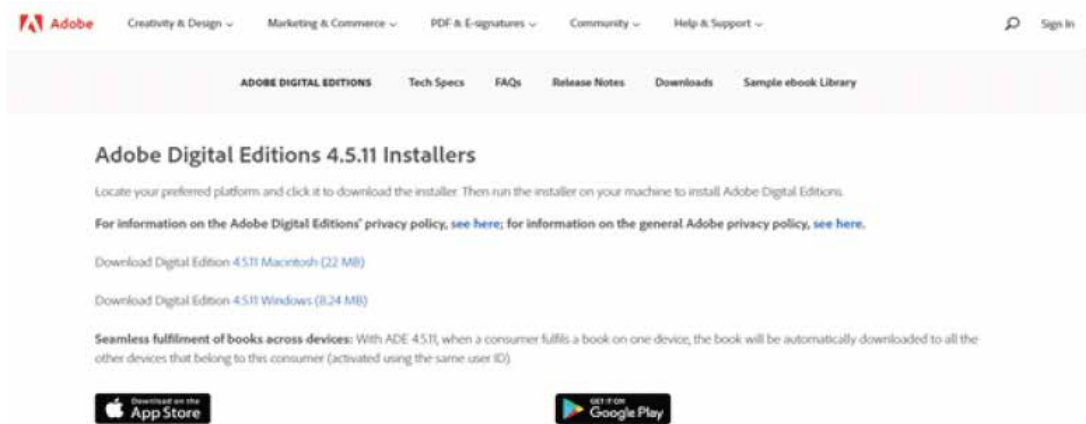

If you are downloading your ebook to your PC or Mac, continue reading.

Follow these steps to open your ebook:

- A. Make sure that **you have an Adobe ID on the Adobe website**. If you don't have an Adobe ID yet, create one here: <https://www.adobe.com/solutions/ebook/digital-editions.html>. In the upper right corner, click on "Log in" and then "Create an account". Confirm your registration by clicking on the link sent to you by email.

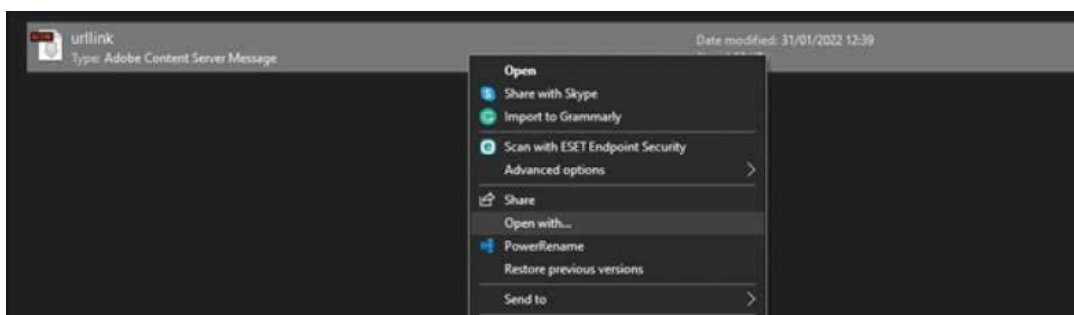

- B. **Download and install the latest version of Adobe Digital Editions** on your computer.

Once Adobe Digital Edition is installed on your PC or Mac, be sure to **sign in with your Adobe ID**.

- C. Now that Adobe Digital Editions has been authorised and you are logged in with your Adobe ID, **click on the link to download the ebook**. Once the ebook file has been downloaded, **click "Open file with" Adobe Digital Editions** (default), and ADE will open the ebook and display it for reading. Some web browsers (e.g. Google Chrome and Opera) do not provide an option to "Open file with" by default, and instead automatically save the file.

If the ebook is automatically saved to your computer, you can open the file directly in Adobe Digital Editions. From the menu, select File > Add to Library. Another option is to drag and drop the ACSM file directly into Adobe Digital Editions.
